SUMMARY

Software Engineer with **5+ years** of experience architecting high-scale systems at **Careem** and **Airlift**. Experienced in building resilient systems. Early adopter of agentic engineering, leveraging AI to drive a **60%** increase in development velocity.

WORK EXPERIENCE

Software Engineer II | **Careem** | **Dec 2022–Present**
Careem Express Squad | Karachi, Pakistan | Hybrid

- Worked with **single-database multi-tenant architecture** supporting seamless logistics for **200+ B2B API partners**.
- Drove the end-to-end **decommissioning** of the Careem Express legacy B2B logistics infrastructure by orchestrating **Claude** and **Gemini** to safely plan, refactor and test distributed microservices.
- Accelerated system design and implementation by **60%** with AI assisted development using Claude Code and Cursor. Utilized advanced features like Sub-agents, Skills, Memory, Plan Mode and multi-repo indexing.
- **Onboarded 10+ high-valued merchants** by developing a Live Captain Tracking system using ThreadPoolExecutor.
- **Saved USD 1M** in annual revenue by implementing Dynamic Delivery Radius to optimize captain supply.
- **Enhanced engineering brand visibility** by leading the full-stack development of the Careem Blog.
- **Reduced MTTR for P0 complaints** by serving as the primary on-call engineer. Authored a blog on on-call tips.
- Mentored fresh engineers in the **Careem NextGen Program**. Delivered sessions on Redis and Swagger Codegen.

Associate Software Engineer | **Airlift Technologies** | **May 2021–Nov 2022**
Supply Chain Squad | Karachi, Pakistan | Hybrid

- **Reduced server load by 10%** by optimizing the inventory update API. Published a blog on API optimization.
- **Enhanced customer satisfaction** by architecting an ETA engine for real-time delivery estimates.

Software Engineer Intern | **Siliconplex** | **April 2021–May 2021**
Python Chapter | Karachi, Pakistan | On-site

- **Enhanced data discovery** for high-volume websites by co-developing a web crawler with Python and XML Sitemaps.

EDUCATION

BS, Computer Science | **University of Karachi** | **Jan 2018-Dec 2021**
CGPA: 3.47 / 4.0 | Pakistan

- Developed “Let’s Ride”t
